NUMBER 94

District Attorney Arnold Asks Revocation of Three Licenses

**Adamitz of Glass Flat and Two Wholesale
Sales at DuBois Under Fire of
Prosecution**

HEARING IS SET FOR NOV. 15TH

District Attorney John C. Arnold appears to be determined to both damn and dam the booze flood which has been engulfing Clearfield county during the past few months or since it was found possible under the terms of the Volstead act to get liquor out of the bonded warehouses of the state.

On Wednesday last he succeeded in having Judge Bell revoke four hotel licenses in Clearfield county and on Saturday afternoon presented petitions to the Court asking that the wholesale licenses granted to Otto Adamitz at Grassflat; Jack Boyle and T. J. Gleason at DuBois also be revoked.

The petitions are similar to those filed in the retail cases in which revocation of license was had and are based on the alleged sale of liquors containing an alcoholic content greater than one-half of one per cent allowed and specified under the terms of the Volstead act.

Upon receipt of the petitions Judge Bell granted the customary rule to show cause why the license should not be revoked, and made the same returnable Monday, Nov. 15th.

QUIZZING PALMER ON RELATIONS WITH MINERS AND COAL OPERATORS

INDIANAPOLIS, Nov. 8.—Activities of the United States Department of Justice in the alleged suppression of evidence in the case of 125 coal miners and operators charged with conspiring to limit production were to be given close scrutiny when the trial of the mine operators opened here today. Attorney General A. Mitchell Palmer, defeated candidate for the Democratic presidential nomination, will be summoned here from Washington to tell whether or not sensational facts were ordered eliminated by him in the coal case. The facts are so weak in the evidence that the defendants will seek to continue the case when it comes up before Federal Judge Anderson or have the suit dropped entirely.

MOTORIST SHOT WHEN HE REMOVED CAR WHICH BLOCKED HIGHWAY

DANBURY, CONN., Nov. 8.—The dying statement of Arthur V. Donahue, New York reporter, was all that the police had to work on today to solve his mysterious murder. Dr. D. C. Brown, to whom Donahue made his statement in the Danbury Hospital, refused to divulge what the newspaper man said, reserving it for the coroner's inquest tomorrow, but it was believed that Donahue gave him the description of his two assailants. Donahue and his brother-in-law, Edward F. Fitzschler of Newton, Conn., were motoring outside of Newton early yesterday when they came upon an automobile in the middle of the road. To enable them to pass Donahue got out of the car and pushed the machine out of the way. As he returned to his car two men appeared and accused Donahue of trying to steal the car. One of them fired with a rifle and a bullet entered Donahue's right lung. Fitzschler brought Donahue to the hospital where he died six hours later.

SINN FEIN PARADE AROUND THE WHITE HOUSE

WASHINGTON, Nov. 8.—As long as Sinn Fein sympathizers confine their parade to a procession around the White House police will probably not molest them. Sinn Fein sympathizers have announced they will march around the White House in silent procession for as many days as Terence MacSwiney was on a hunger strike. Several hundred marched last night for the first time.

WOMAN BURNED SELF TO DEATH.

ROCHESTER, Nov. 8.—Mrs. Louise Stout, found burned to death early today in the ruins of her bed is believed to have committed suicide. Indications were that Mrs. Stout poured kerosene around the bed and started the fire. Her child gave the alarm to neighbors who quenched the fire before it did much damage to the house.

JOHN BULL HAS RIGHT MAN THIS TIME

DUBLIN, Nov. 8.—Patrick Mahon, Sinn Fein leader, who trapped the British government into deporting his substitute four years ago, is under arrest here. Mahon was right hand man for Michael Collins, commander of the Sinn Fein army in the 1916 uprising. At that time Mahon was sentenced to six months imprisonment and deportation. Another Sinn Feiner substituted for Mahon and the authorities deported the wrong man.

LEAGUE MEMBERS ANXIOUSLY AWAIT INTIMATION OF HARDING'S POLICY

PARIS, Nov. 8.—All Europe is wondering what Warren G. Harding will do as President of the United States on the League of Nations and our course of international relations when he speaks. It is certain Senator Harding can alter happenings at the Geneva conference of the League of Nations by a few words. In every country there is wonder as to what America will do; join the League of Nations, remain out or insist on recasting the organization. There is also wonder as to how America will view some of the decisions to be reached at this session. France, most vitally affected by the decision regarding Germany, is particularly anxious for an indication of America's policy. Diplomatic courtesy prevents inquiry of the Senator. The foreign office has indignantly denied that they have ever sent a feeler out to the President-elect, either directly or indirectly.

LOCAL ELEVEN VICTORS OVER MT. UNION

**Thirty Yard End Run by M.
Norris Starts Game Off
Towards Certain Victory**

BOWES HAD LONG RUN TOO

By DICK LEIPOLD

C. H. S. has at last found her stride, demonstrating this clearly in the game Saturday with Mt. Union, playing havoc with the much-touted main line eleven, snowing them under 46 to 6.

By virtue of this victory the Red and Black's standing in the football world has been raised several notches, as Mt. Union prior to Saturday's holocaust, had defeated five high school teams by one-sided scores, dropping one tilt to the strong Juniata College Varsity, and scoring twice on the collegians. Clearfield permitted the Mt. Unionites to score once and defeated them by 5 more points than the college team.

Mt. Union kicked to C. H. S., who started down the field with a cyclone attack that seemed to daze the Blue and Gold athletes, N. Norris clipping left end for 30 yds. Bowes then raced around the right wing for 15 more yards, Johnson and Bowes on the next two plays bucked their line for 10 yards and B. Norris on the next play circled the Mt. Union team's left end for the first touchdown, Johnson kicking goal. Score C. H. S. 7, Mt. Union 0.

The Red and Black then booted the ball to the refractory town lads and during the next five minutes of play the ball changed owners several times, on one occasion Mt. Union's full back broke loose for a gain of 25 yards, but on the play following Nelson scooped up a Mt. Union fumble, giving the ball to C. H. S., who advanced the ball from her 35 yard line to the Mt. boys 3 yard line and would have scored again had it not been for a 20 yd. penalty the quarter ending with C. H. S. on their opponent's 23 yard line.

The second quarter started by Mt. Union and C. H. S. exchanging points, Clearfield profiting by a fumble of a Mt. Unionite player, Nelson again being the recoverer of the oval. Clearfield once more steadily advanced into the Blue and Gold's territory, placing the pigskin on their opponent's 10 yard line. At this stage Clearfield was again penalized 20 yards, but this could not stop the Red and Black, who successfully worked a lateral pass, Johnson to B. Norris, gaining 25 yards, and on the next play N. Norris juggled the ball over from their 5 yard line for C. H. S.'s second touchdown, Johnson kicking goal, score C. H. S. 14, Mt. Union 0.

Clearfield scored again this period, when Bowes punted, and an opposing player fumbled the ball, Nelson gathering it in. The Red and Black on the first play advanced the ball to Mt. Union's 12 yard line, N. Norris wading through their defense for 32 yards and on the third play following Johnson called for a triple pass formation, Bowes to Johnson, Johnson to N. Norris, scoring again—kick missed. Score first half C. H. S. 20, Mt. Union 0.

The second half Mt. Union made their only score of the game, viz: a player belonging to the "Union" outfit recovered a C. H. S. fumble and on the next three plays their eleven advanced the ball to the Red and Black's 10 yard line and with the aid of a penalty gained first down, after unsuccessful attempts to gain through our line, their attack spread wide and their half back launched a pass that sailed over the heads of several Clearfield players and into the arms of their left end, Heck, scoring their first and only touchdown, kick missed.

C. H. S. then tightened up and the Huntingdon county lads did not have a show, the Red and Black warriors putting the ball across four times, Johnson and N. Norris dividing the

ARMISTICE DAY TO BE CELEBRATED BY BANG UP BANQUET

Armistice Day this year will be celebrated in due form by the John Lewis Shade post of the American Legion. The plans are being formulated for a great banquet to be held in the Dimeling Hotel on the evening of Thursday the 11th.

It is the aim of the banquet committee to get in touch with every ex-service man and woman and have them attend this banquet. Not only are the members of the local post invited but also every man or woman who was in the service during the great world war.

An excellent program has been prepared and the leading speaker of the evening will be Judge Singleton Bell. Other speakers of note will be present and a great evening is expected. A most inviting menu has been prepared by Mine Host McGinniss and the whole affair will be done as thoroughly as the boys did the job "over there."

Alfred Graham who has been ill at his home for a week or so is improving but is still confined to his bed. His legion of friends hope for an early recovery.

Miss Evelyn Snively returned last evening from State College where she attended a house party over the week end.

honor, both scoring twice, Johnson smashing their line for one and skirting around end for the other, while Norris scored on a trick play through their line and made the most spectacular play of the game by leaping into the air in intercepting a forward pass, dashing 38 yards for a touchdown bringing Clearfield's total up to 46.

Although outplayed in every department the Mt. Union boys fought to the last minute and justly deserve to be classed among those who play the game fair and square, whether they win or lose.

The line up:

C. H. S.	Mt. Union
Martin	Heck
Mann	Shaffer
Hile	St-
Nelson	Ernst
Bird	Drake
Stephenson	R T
Kurtz	RE
W. Johnson	Q
B. Norris	L H
N. Norris	R H
Bowes	F

Sub. Torrence for Martin, Mandola for Bowes, Touchdowns, B. Norris, 1; N. Norris, 4; Johnson, 2; Heck, 1; Goal from touchdowns, Johnson, 3; Kurtz, 1. Referee, J. Lavan, Umpire, Lee; Headlinesman, Shirley.

NOTES OF THE GAME

The saying, "In Union there is strength" did not hold good Saturday, for although Clearfield's opponents had a "union of mountains" they could not stop C. H. S.

DuBois High School's football team layed off Saturday to come to Clearfield and scout our team, but the Red and Black did not show their full hand in Saturday's clash, so some surprises are in store for the third class city boys when they meet C. H. S. next Saturday.

The crowd that witnessed the Mt. Union game was small indeed, as the bleachers were not sprinkled with spectators and as the High School management has scheduled games of the highest type, everyone should support our team by coming out to all the games.

KELLYTOWN STORE ROBBED THURSDAY; GUILTY CONFESSED

The Kellytown Supply Company store was robbed on Thursday night last of quite a large quantity of wearing apparel, jewelry, etc. The thieves left no clue at the scene of the robbery and as they had come to the store in an automobile and beat it the same way with their booty the store people began to charge their missing stock on the profit and loss account and let it go at that.

Sheriff Gorman was notified of the robbery and with Deputy F. S. Gilliland was about to leave for Kellytown Friday morning to investigate the affair when Ed. Jury, of West Side, called the Sheriff's office and notified him that his car had been stolen out of the barn during Thursday night and returned badly damaged. In looking over the bar a brand new glove was found and when this clue was discovered it was naturally concluded the Kellytown job was the work of Clearfield parties.

Mr. Jury had been doing some concreting at Kellytown and as he had a couple of local young men working for him up there suspicion at once turned in their direction.

Deputy Sheriff Gilliland took charge of the affair and soon dug up a lead which led to the discovery of the burglars and their booty. As a result of his investigation warrants were issued for Leland Betz, aged 17; Frank Wagner, 20, and Bert Toot, 23. The young men were arrested Saturday afternoon and promptly confessed their crime, restoring the stolen property, a part of which had been hidden beneath the B. & P. railroad bridge across the river below the tannery.

The loot recovered consisted of three pairs of \$18 shoes, several sweaters and woolen shirts, eight or ten white shirts, two bundles of neckties, handkerchiefs, stockings and jewelry.

The young men were placed in jail and their case will likely be disposed of at the coming term of criminal court.

BIRTHDAY PARTY AT LECONTES

Last Friday evening a number of the friends of Mrs. J. Kyler Murray of Lecontes Mills gathered at her home to help celebrate her birthday. A most enjoyable time was had by all and The Progress joins in best wishes for many happy returns of the day.

Mr. and Mrs. E. K. Merrifield, of Pittsburgh, announce the birth of a daughter on October 14th.

OLDEST WOMAN VOTER AT CUWENSVILLE

Aunt Katy Thompson, of Cuwensville, aged 98, was the oldest woman to vote in this section on Tuesday last. Mrs. Anna Gulich Heisey, of Hyde, who recently celebrated her 104th birthday, registered on registration day and hoped to be able to cast a Prohibition vote on Tuesday, but on account of feeling a little out of sorts was afraid to venture out in the rain on election day.

NOON STOCKS

NEW YORK, November 8.—Twelve o'clock prices on the stock market today were: American Locomotive 93, Baldwin Locomotive 108 1/4, Bethlehem Steel 64 1/4, Central Leather 39 1/4, Crucible Steel 140 1-2, Central Electric 137, Mexican Petroleum 179, Midvale 37, Republic Iron and Steel 72 1/2, Sinclair Oil 30, Westinghouse Electric 46 1/2.

SCHOOL BOARD FACES NEW BUILDING PROGRAM

**ONLY A SHORT TIME UNTIL ALL THE
SCHOOL ROOMS IN THE BOROUGH
WILL BE CROWDED WITH PUPILS**

PROBLEM OUGHT TO BE SOLVED

Below is an excerpt of a report made recently by Superintendent Zerfoss to the School Board.

This report shows that in ten years there was a growth of Clearfield school pupils of about four hundred. This means that the Clearfield schools increased one school of forty pupils in each year. A study of the data shows that during the two years of the infantile paralysis and Influenza epidemics, which were the same years that the war was in progress, the growth was less than the average. So, it is reasonable to assume that the growth of our school population in the future will be at least as great as it was in the last ten years.

All the buildings in our town are filled except the Market Street School (Leonard grade) where a school or two more can be accommodated. The purpose of the report was to call attention of the school board to the fact that it was now imperative for them to decide upon a building program.

The wisdom shown in the building of the new high school is now established and it is hoped that the School Board will meet the present needs in the way of housing the pupils of the Borough as satisfactorily as it did in building a house for our High School pupils.

It is not pleasant to contemplate the expense of new buildings, but it would be far more unpleasant to realize that our boys was so dead that the growth of our schools gave in to the world. It is very probable that our schools are a large factor in the growth and prosperity of our town.

ATTENDANCE CHART FROM 1911 TO 1920.

Year	Grades 1 to 6	Grades 7 and 8	High School	Total	High School Pupils	Elementary Pupils	Total Pupils
1911	980	198	181	1359	25	25	54

1918	1030	284	476	1790	155	64	219
1919	1104	272	509	1885	182	75	257

BLOODY CLASHES OVER WEEK END KEEP IRELAND IN STATE OF FOMENT

LONDON, Nov. 8.—Ireland was astir over the week end with clashes between the Unionists, the military and the Sinn Feiners. In Londonderry, Belfast and Dublin the clashes became serious, riots with many injuries resulting. The act of Cork has provided the third brigade of the British army with rifles by attacking the citizens. Officials completed the assessment with the threat that three British lives would be claimed for "every man, woman and child" murdered by the British police.

HARDING SPECIAL NEARS POINT ISABEL WHERE FISHING IS GOOD

Aboard the Harding special en route to Point Isabel, Tenn., Nov. 8.—After 48 hours of continuous travel President-elect Harding was nearing Point Isabel today where he will spend ten days fishing and golfing. His special train arrived at Brownsville at 11:30 A. M. The party took automobiles for their 30 mile ride to Point Isabel. Politics, office seekers and all weighty matters will be taboo. Harding has carefully refrained from inviting any one to Point Isabel other than those in his immediate personal party. A squad of secret service men are on hand to restrain anyone whose enthusiasm might get him too close to the President-elect.

WILSON PREPARING FINAL MESSAGE

WASHINGTON, Nov. 8.—President Wilson is preparing his final message to Congress, it was learned today. The message is to be delivered to the final session of the 66th Congress when it meets on December 6. Wilson has been working on it for some time and discussed part of it with various members of his cabinet.

Entered at Post Office at Clearfield, Pa., as second class matter.

It is indeed small wonder that the people of the United States lost all patience with liquor dealers and sought to punish them by electing a "dry" congress which gave us a prohibition law. After such a scourging it would be supposed that their behavior with such licenses and privileges as they retained would be exemplary but such has not been the experience. District Attorney Arnold should have the support of every good citizen in his attempt to curb the flood of liquor which is being let loose in an otherwise respectable county. The revocation of four licenses will help a lot toward showing the law breakers that they must be good.

Well might Europe wonder what the policies of Mr. Harding are going to be. Already the league is making an effort to function but it is noticeable that the league is going slow in making decisions. Were the United States in the League and hog-tied to it the council would be free to go ahead and make decisions which may or may not be disastrous to us. As it is the anxiety about the United States should at least act as a balance wheel.

No one need think that the hospital campaign is over simply because they do not see much mention of it in the newspapers. The campaign, as was stated a couple of weeks ago, will continue until the institution is provided with the funds necessary to insure its being able to cope with the needs of the community, and those among our readers who have not made their contribution should do so at once, thus relieving the hospital directors of any additional expense in connection with the carrying on of the campaign.

WHY?

The writer's business takes him around considerable into other localities, frequently into towns as large or larger than Clearfield and occasionally into rural villages. Very recently we drove up to the front porch of a country store in a little hamlet in Clearfield county. There were five men lounging on the front steps. Some were chewing tobacco and spitting promiscuously but NONE were spitting on the porch itself, or the steps and it would not have been impossible for a lady, wearing a 1920 skirt, to have entered the store without getting the hem of her skirt soiled if she used proper precautions.

This morning the writer had occasion to go into our Clearfield courthouse. There were nine more or less prominent citizens perched on the front steps and not only the surrounding pavement but the steps and loggia of the court house were filthy with tobacco spit marks. As in the other case of the lady with the 1920 skirt she might have gotten there safely but the credit would belong to the 1920 skirt designers. The first condition differed from the latter in that, as far as we know, the crowd did not number any of the official life of the village.

Why are enlightened citizens so careless and indifferent as to what should be the first attribute of man—cleanliness. These same citizens would not permit such an occurrence on their own front porches and if they did the board of health at the request of their neighbors would probably stop it. But the entrance to the temple of justice—well that seems to be different. Why?

3 Reasons

Why you should keep the Clearfield National in mind

- ONE A Commercial Department prepares to be a real assistant in your business.
- TWO A Savings Department, paying 3% interest, for the safe and profitable care of your savings.
- THREE A Trust Department, under Federal supervision faithfully administering fiduciary business.

Any of our officers will be pleased to discuss these services with you.

JOHN M. BAIN, J. P.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Borough councilmen met in council chamber in the borough building in an adjourned session from November 1st, Friday evening, the most important budget of business being the reading of the proposed new water contract from the Curwensville Water Company.

Members present were President John P. Irvin and Messrs. Caldwell, McKinley and Samuel Bressler, J. P. Fullerton and F. F. Tate being absent. The minutes of several previous regular and adjourned sessions were read and on motion ordered approved.

A report from sewerage committee was read. It was alleged that a drain from the residence of Charles Smith, on Susquehanna avenue, South Side, was causing a good deal of annoyance by the refuse coming from it and going into a larger drain pipe on the street causing the borough drain to clog up from which an offensive smell arose making an unsanitary condition round and about it. On motion it was decided to have said drain removed by property owner and that the drain from house toilet placed in some other position than the one now occupied by it; also a more thorough investigation of the complaint be made and reported on after which the secretary and borough solicitor be instructed to have the offensive drain removed legally.

Engineer Hess being absent from town no report was presented relative to a survey and blue print made of the Muller and Scofield street underground drain improvement, and also as to the probable cost of the same. The matter was referred back to the sewerage committee, who expected to have an authentic report to bring before council from Engineer Charles Sweney, as to grade, cost of tile pipe and the digging and covering of the drain.

The revised contract from the Curwensville Water Company was read by Secretary Dale. Section after section was discussed and changes made in their status which was not unfair either to the Water company or to the taxpayers of Curwensville borough. The water people ask that the borough pay them the sum of \$700 for the use of 45 fire plugs, and for a term of five successive years. Some changes were made in this section, which would be beneficial to all parties concerned.

It was reported to council that the large reservoir on the hill, not far from McNaul street, has only contained about 2 1/2 to 3 feet of water at one time for several months past. Councilman McKinley asked that a clause be inserted to read that "there must be held in the reservoir at all times not less than 75 per cent. of the reservoir's capacity." This met with the approval of all councilmen present. Another change asked for was that the said water company have the water tested by a chemist and that sample bottles be given to borough council every three months at least.

The President was asked to confer with the solicitor regarding changes of which we give only a few of the important ones, for lack of space and have them inserted in the new contract. If the Water company will meet the borough council half way the contract will be about 50-50 and everybody satisfied. Heretofore the Water company, even before it passed into the hands of its present owners, made contracts to about suit themselves, but the present board of councilmen thought that the citizen should have a little something to say through them their representatives hence the close scrutiny of all clause. Written in this, the company's second contract position as read last evening. The Progress representative would like to give the full text of all of the twelve clauses in this new contract but time and space forbids him from so doing, suffice to say that it is generally believed by those are on the inside of all of the details, that when the contract was read, and some of the clauses, therein reworded, the Water company will not hesitate long in binding themselves to its precepts. After the document is signed, sealed and delivered by all parties concerned, it will relieve from the minds of the borough officials a very vexing question and one which that body dreaded to take up.

The Curwensville letter in The Progress, after the water question is finally settled, and the records entered in the minutes book of borough council, may be able to give the document in full, for the benefit of the citizens, who would be very much pleased to read the entire contract in print.

Letter read from State Highway Department, relative to new state road, pavements and gutters. All neglected and suggested that repairs be made before cold weather. In fact the work must be done within the next 30 days or the department will proceed to do the work and charge the expense up to the borough. Street committee made a similar report, and council decided to start the work at once. Also a report was made on the bad condition of street, leading from the end of Susquehanna avenue to the iron bridge on road leading to Bloomington.

A representative of State Highway department, Mr. Stackpole from Huntington, offered to come to Curwensville, meet and confer with borough council, relative to roads and highways. Secretary Dale instructed to notify the gentleman that he would be a welcome visitor at any time.

Several residents from South Side petitioned for street crossings for private alleys. Request tabled, as council had no jurisdiction to private work at the expense of the taxpayers.

Warrants for bills presented as follows: Fred Robinson, printing, \$12.50; John P. Irvin, lumber, \$784; repacking hose by Elmira firm, \$130; repairs to fire engine, \$12.50; Fullerton's garage, \$10.47; Gates Hardware Co., \$6.17; T. B. Cross, \$3.00 and \$2.64; ——— \$109.67; work on fire engine; Moose, \$25. This bill tabled until next regular meeting. Dale, street commissioner, \$100; Clerk, pro-tem, \$100. The hour getting late council adjourned to meet at call of President Irvin. Just as soon as the water contract is signed by Messrs. Frederick and Bradenbaugh.

Two young boys named Erhard, who live at New Millport were playing with an axe on Saturday. The one with the axe brought the implement down with some force, swinging it from his shoulder. In some unaccountable manner he struck his companion on the wrist almost severing the hand at the wrist joint. A physician who happened to be close by at the time did what he could for the lad and not having any assistance in cutting the wound in proper shape, sent the lad to the hospital. Had the physician not been close by at the time, it is likely that the boy would have bled to death in a short time.

Miss Lottie Bixler was a Clearfield visitor with friends last Saturday.

What has become of our Board of Trade and Chamber of Commerce? Surely these two organizations have not become defunct. If the town is to grow and become active, it is up to them to help it along.

Home made sausage and buckwheat cakes are a delicacy that is being enjoyed by Curwensville citizens. Sausage at 45 cents per pound and buckwheat at 90 cents for 12 pounds makes pretty expensive eating, but we must have it.

Curwensville Democrats are still ignoring what brought the tremendous Republican majorities in the election.

Foley's Honey and Tar COMPOUND

CLEAR THE THROAT of phlegm and mucus, stops that tickling, opens the air passages for easier breathing and coats the raw, inflamed surfaces with a healing, soothing medicine.

Grateful Father Tells What It Did

W. E. Curry, 130 Up 6th St., Evansville, Ind., writes: "I have a little girl 6 years who has a good deal of trouble with croup. I have used Foley's Honey and Tar Compound, given it to her according to directions, and obtaining instant relief for her. My wife and I use it whenever bothered with a cold, or cough, and I will say that it is the best remedy for a bad cold, cough, throat trouble or croup that I ever saw."

Parents who use Foley's Honey and Tar know it is safe and no harm will come even if an overdose should be given by accident. It tastes good and children like it. It won't upset the delicate stomachs of young children, delicate persons or elderly people.

AFTER THE "FLU" OR ANY SEVERE SICKNESS

You Must Enrich the Blood to Restore Strength

To overcome weakness after any severe sickness nothing equals Vinol, our cod liver and iron strength-restorer and body-builder—because in a natural manner Vinol restores thousands of red corpuscles and enriches the blood, quickens circulation, increases the appetite, promotes sleep, refreshing sleep and soon the entire system is filled with renewed life, vitality and energy.

Mrs. Charles Moore says: "Influenced left her so weak she could hardly walk, but Vinol quickly restored her strength the same as it has for a great many of her friends who have been ill."

Your druggist sells Vinol, therefore do not accept any substitute.

Shorty gets an earful!

Howdy from New Orleans, PETE!

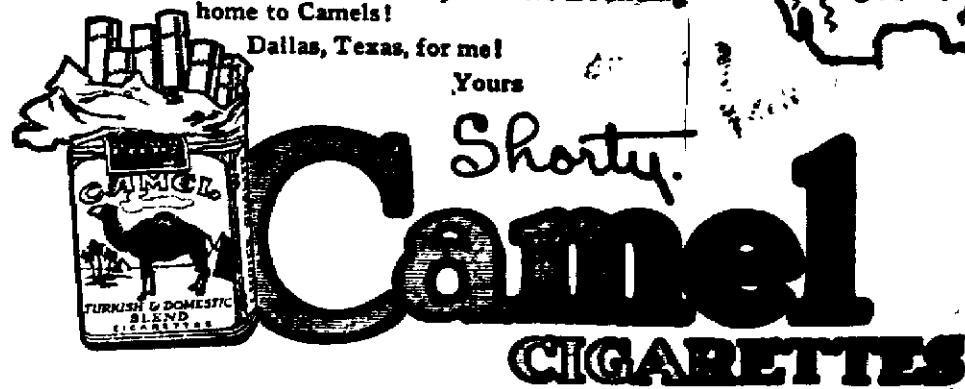

Say, old clock, you've got the time—maybe you'd like to hear this one! As we were rolling into New Orleans yesterday one of the men in the club car was recounting his cigarette experiences; how he finally pulled a trick on his luck and got set right!

"Well, I've had my cigarette lesson," continued the traveller, "I went up and down the line on cigarettes until I got hold of Camels and got deep into their quality and mildness and delightful flavor! There never was a blend such as Camels combination of choice Turkish and choice Domestic tobaccos! I'll say it—Camels taught me what a cigarette should be and they'll teach any man who smokes!" Thinks I to myself — "Sic 'em, judge, every word you spill is a sentence!"

Now, Pete, that's the kind of Camel thanksgiving stuff you get North, East, South, West and through the middle! That's all as true as that little sheep will wag their tails!

I did some tall thinking as I browsed through the quaint old French quarter this evening—how universal the appeal of Camel cigarettes really is! Figure the travelling I've done and the people I've met—each city different from the other—AND Camels have been the ONE cigarette to be found everywhere—and the cigarette most smoked at each point! Pete, old backstop, it's wonderful the way smokers are sliding home to Camels!

Dallas, Texas, for me!
Yours

Decorations For New Capes.
Some of the new capes are decorated on the front with applique, in floral or conventional designs, and in velvet, dachstein, lustrated tweed or satin. Edges are decorated with ribbons, braid or furiously secured.

Velvet Bow In Coiffure.
It is quite the fashion to tuck a black velvet inch-wide ribbon bow—a hairpin does the trick—midst the coiffure, at left side, near the nape of the neck.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feed properly. Do this and you must watch your diet and bowels—there's no need of having a yellow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you plenty per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the bowels and bowels, which he gave to the patients for years. Dr. Edwards' Olive Tablets, the substance for colored, are gentle in their action yet always effective. They bring about the natural buoyancy which all should enjoy by keeping up the liver and clearing the system of impurities. Dr. Edwards' Olive Tablets are known to their olive oil.

RUSSIAN BLOUSE IS POPULAR

Type of Dress Is Being Featured in Many Lines Developed for Young Women.

The Russian blouse type of dress is being featured for the coming season in many lines developed for young women. One charming frock recently seen had a long Russian blouse. It was made of black satin, fastened with large ornamental buttons of dull blue, held in with a girdle of matching color, and worn over a full plaited skirt.

Another very smart Russian blouse dress was made of tulle velvet, with a narrow panel embroidered in several rich shades extending down either side of the blouse. A narrow strip of the embroidery served as a girdle, which was loosely tied. The ends of the girdle were finished with metal tassels.

Tricotone was introduced as a tailored dress fabric several seasons ago and soon became so much the rage that serge was regarded as rather drab. It is interesting to note that fine French serge is again in vogue with the exquisites, and that it is employed in many of the smartest of next season's tailors.

CHILDLESS WOMEN

Please Read This Letter And See What Normal Health Will Do For You.

Lancaster, Pa.—"I was weak and run down, had pains in my head, back and stomach all the time, and bearing down pains. I had used Lydia E. Pinkham's Vegetable Compound and it helped me, so my mother got me to try it again, and I am now feeling better than I have for years. We were married sixteen years and had no children, but now we have a fine big boy and we always call him our 'Pinkham' boy. The doctor was afraid of my case as I was 41 years old when the boy was born, but I came through all right. You can use this as a testimonial if you wish and I will certainly write to any one who writes to me about it."

—Mrs. MARGARET G. HAYES, 520 Howard Avenue, Lancaster, Pa.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence. For sale at all drug stores.

DADDY'S EVENING FAIRY TALE

PUMA LION.

"I'm an American Puma or mountain lion," squealed the Puma, and my name is Mike.

"Some of my family are quite vicious and dangerous, the way all members of the great wildcat family can be, and then again we can be tame and friendly. That is, if we're made friends of and if we're tamed when we're young and have the right sorts of tame dispositions, which, after all, the great majority of creatures have.

"There's Leo, the second, in the next cage. He is over seventeen years old. He is the father of almost all the lions around here. There is Helen, though. He is not Helen's father. Helen is the wild lioness and says she is glad that Leo isn't her father. She doesn't think Leo is nearly wild enough, though, gracious, most would think so.

"And I don't believe they would like to see Leo free to see whether he would be wild enough or not.

"There is that Siberian Tiger pretending he feels sleepy, but if anything turned up that was wild enough for him to do he would do it. It's rainy today and he feels drowsy and is perfectly happy playing with that bone as a little dog would do.

"Then there is the Leopard standing up and waving his paw to the people passing. They think that is a great sight. I doubt if they would, though, if he were on the opposite side of the street and should do that. That would be a different sight! That would be a joke.

"Ah, he has handsome spots and he is now admiring every one of them himself. He is a great admirer of his own spots and they are handsome. But he is a treacherous wild creature. In fact there isn't a creature in the whole cat family that is as wild as the leopard. The tiger is a wild one, too, though.

"He is very handsome as he lies there so contentedly playing with the bone. His whiskers are very fine. But he too is wild and treacherous. Creatures must look out for him.

"There is the great lion, old Leo; he is roaring now and giving them a great scare. He banged against his door and they thought for a moment, a horrible moment, he had opened it. He is a bluff, that old lion. He roars and gets the children standing in front of him, saying, 'Oh, isn't he terrible and wild?' He's wild enough but not nearly so much so as the leopard and the tiger. No, indeed.

"There are the llamas in the next house. Their heads are out in their

"Why Hello, Pussy Cat?"

heads are separate from them. They just want to wet their heads and see the outside world without getting wet all over. But it's a funny sight.

"There goes Leo talking to the children again!

"Why, hello, Pussy cat, me-ow; I can me-ow, too," said the Puma. What do you think of all this and when did you come?"

"I came from the out-of-doors," said the cat. "I took a seat upon the floor of the zoo and I walked into the zoo house."

"What do I think of it all?" the cat asked. "I me-ow, I me-ow, I think it is a good idea."

"If these wild creatures, I mean, that I, too, belong to the great family of cats. Gracious, if some of the people who know me could hear me speak like this they would be surprised. But never mind; I won't tell them. I will purr when I talk to them.

"But once in a while I do love to come in the zoo here and I like to sit on the floor and think what fine cousins and relatives I have, how great and fearful and fine and dangerous they are. That was what I was thinking when you spoke to me, me-ow, me-ow," ended the cat.

"I had an idea it was, a good idea that it was," said the Puma; "yes, me-ow, me-ow, I know you're a cousin and there is a bit of wildness even in you!"

STARCH OUT OF A FELLOW

Working Hard Every Day Without Let-up Wears You Out in Time

SOMETIMES YOU NEED A TONIC

Pepto-Mangan Makes Rich, Red blood And Lifts You Out of Bad-Health Ruts

There are days when you feel downright sick. You think you couldn't feel any worse. Yet, as far as you know, there's nothing the matter with you. From the time you get up in the morning till you go to bed at night you are tired. You feel as though you'd like to sit down and do nothing. You look tired and pale and haggard. You get careless about your dress.

No wonder! Your blood is all clogged up with poison. Your power of resistance is at a low ebb. Your blood needs food. It needs the help that the vitalizing tonic, Pepto-Mangan, will give it. Instead of feeling exhausted and tired out for months, you will soon pick right up and feel well and strong again. And with good red blood you are able to fight off ailments.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is prepared in both liquid and tablet form, and you can take one or the other and receive the same benefits.

Sold at any drug store. But be sure you get the genuine Pepto-Mangan—"Gude's." Ask for it by the full name and be sure the full name, "Gude's Pepto-Mangan," is on the package. Advertisement

Costly Rainy Day.
 It has been calculated that the cost of a rainy day in New York city is something like \$100,000.

"IS NOT ENOUGH MONEY TO BUY IT"

That's What Butler Man Says Of the Good He Has Received From Tanlac.

"There's not enough money to buy the good Tanlac has done me, and I am glad to give this statement for what it may be worth to others who are trying to find the right medicine for their troubles," said Aaron K. Kerr, of 671 Brown Ave., Butler, Pa. "Last February," he explained, "I was taken down with an attack of the 'flu' and left me in a bad fix. My appetite went back on me and what little I did manage to eat felt like iron in the pit of my stomach. 'My head ached like it would burst and at times I got so dizzy it was all I could do to continue with my work. 'My nerves were so unstrung I couldn't sleep and I always got up in the mornings all tired out. 'There was a sharp pain in the small of my back all the time and I was so short of strength and energy and felt so bad that my work was an actual burden to me. Tanlac has made me feel like an entirely different man. 'My appetite has come back and what I eat seems to agree with me perfectly, for I am stronger and heavier and every sign of my stomach trouble is gone. 'I don't have any more sick headaches or dizzy spells and my nerves are so quiet that I sleep soundly all night. 'All that tired, played out feeling had left me and I have plenty of strength and energy to do my work. The pain has entirely disappeared from my back and I am feeling just fine. 'Tanic is sold by all leading druggists.

LESSONS IN OPTOMETRY
HARRY H. ROSENTHAL, O. D.
 Woolridge Building, Clearfield, Pa.

LESSON SIXTEEN

It is likely that more and more people will wear glasses as time passes?

Yes, when Optometry has attained its proper place in the estimation of the public far more people than at present will wear glasses.

With what result? The efficiency of the people will be greatly increased.

In what way? By the removal of eye strain with all its detrimental results.

It would seem to be the duty of Optometrists to acquaint the public with the advantages of wearing glasses and with the beneficial results that would follow a more general recognition of what Optometry is and what it does?

Yes it is for exactly that reason that this series of lessons is being printed.

Universal Duty.
 Each of us is bound to make the little circle in which he lives better and happier; each of us is bound to see that out of that small circle the widest good may flow.—Dean Stanley.

Neglecting That Cold or Cough?

Why, when Dr. King's New Discovery So Promptly Checks It?

LETTING the old cough or cold drag on, or the new one develop seriously, is folly, especially when at hand, you can get such a proved and successful remedy as Dr. King's New Discovery.

For over fifty years, a standard remedy for coughs, colds and grippe. Eases croup also. Loosens up the phlegm, quiets the croupy cough, stimulates the bowels, thus relieving the congestion. All druggists, 60 cents, \$1.20 a bottle.

For colds and coughs Dr. King's New Discovery

Wake Up Clear Headed

That "tired out feeling" mornings, is due to constipation. You can quickly and easily rid yourself of it by taking Dr. King's Pills. They act mildly, stir up the liver and bring a healthy bowel action. Same old price, 25 cents.

McCarty's For Good Candy

I have been catering to the sweet tooth of Clearfield for years and thus far made good. Why? Because I have always had a candy for every taste—no matter how finicky that taste may be.

MCCARTY'S

Famous Landmark.
The old windmill on the Wimbledon common, a few miles of London, has been shown of the feature that has made it a landmark for many generations. Its four sails, which could be seen many miles away, have been removed, the common conservators having been advised that owing to their great age they were a danger, not only to the structure, but to those living in the mill house underneath. The old windmill presents a strange appearance without the sails.

Making a Precious Shawl.
The process of making a cashmere shawl occupies three men for six months, and calls for the fleece of a ten goats.

Charms Not Hidden.
Our observation is that when a girl is proud of her figure she simply refuses to erect a board fence around it.—Galveston News.

NOT WORKING BUT TIRED OUT
When one feels always tired without working, or suffers from backache, lumbago, rheumatic pains, sore muscles or stiff joints it is not always easy to locate the source of trouble, but very frequently it can be traced to overworked, weakened or diseased kidneys. Mrs. L. Gibson, 2th and Erie street, La Junta, Colo., writes: "At kidney's were giving me a great deal of trouble for some time. I took Foley Kidney Pills and they helped me right away."

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief. Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds of the chest (it often prevents pneumonia). It is always dependable.

MUSTEROLE

THE KITCHEN CABINET

Then find no fault with the sunshine! God made the world bright to be. He hath made a leaf-shelter for every bird. And a songbird for every tree. But into the human heart the law cometh for bitter or sweet! The measure which thou to the world doth give Such measure the world will mete. —Julia Carney.

SEASONABLE SUGGESTIONS.

While fresh berries are in abundance it is timely to can some for winter use for shortcakes and puddings. Crush the fruit, such as raspberries, blackberries or any small fruit, until smooth then add equal measures of sugar. Let stand several hours in a cool place, then can in jars which have been well sterilized and place, covers on. In a cool place or on ice to cool. Fill the jars and seal, place on the cement floor of the fruit closet or in the back part of the ice chest if roomy enough to accommodate a half dozen jars. Such fruit will be rich and just as fresh as when canned.

Rhubarb and Raspberry Conserve.—A most delicious conserve using two parts rhubarb and one part raspberries with equal weights of sugar, all cooked until thick. Any fruit such as strawberries, cherries or blackberries may be used in the same proportion. When one has plenty of pieplant and few berries this method is especially recommended, as the pieplant is usually plentiful and cheap, while the berries are more costly. The product seems to be so largely the berries in flavor that the rhubarb only adds in bulk.

Rhubarb Conserve.—Take five pounds of sugar, five pounds of rhubarb, four oranges, two pounds of raisins. Roll the orange skins until tender, discard the water. Grind the skins and fruit and cook all together until thick.

Strawberry Preserves.—Take two pints of sugar, one small cupful of water, boil until it hairs. Add three pints of berries and boil 15 minutes; pour into an earthen crock and let stand over night. Can cold the next morning. Cherries may be preserved the same way. If allowed to set in the sun for a day, covered with glass, they will be rich in color as well as good in flavor.

Nellie Maxwell

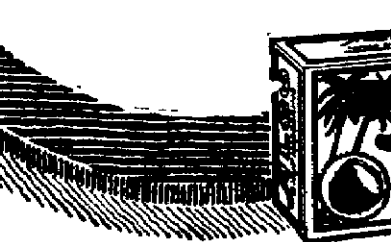

More Pep Required.
Junior was out walking with his grandfather, who became tired and walked along slowly. Junior was in a great hurry to get home, so, running some distance ahead, he turned around and yelled, "Come on, grandpa put a little more pep in your legs."

Helpfulness Its Own Reward.
Never let yourself worry as to whether those you help will be sufficiently grateful. Think of helpfulness as its own great reward.

Explaining the Hermit.
A good many of the unknown "relatives" who always appear soon after the death of a rich hermit probably are genuine, and help explain why the hermit became a hermit.—Kansas City Star.

Average Life Thirty-Three Years.
Good authorities give the average duration of human life as about thirty-three years. One-quarter of the people on the earth die before the age of six, one-half before the age of sixteen and only about one person of each 100 born lives to the age of sixty-five.

A whole lot Lower in Cost. And—Oh! How Good!

We're grinding some excellent

Corn Meal Flour

just now and it's fine made up into "pone". MITCHELL MILLING CO. Clearfield, Pa.
